

**Women's Urinary Health Talk**  
 Encourage your partner or friend to participate in screening, and while you wait, listen to Dr. Sohail Siddique, a urogynecologist with SIU Medicine. He will discuss female urinary incontinence and treatment options. The 30-minute talk will take place at 5:30 p.m. and again at 6:15 p.m.

Prostate cancer is one of the leading cancers among men—early detection allows for more treatment options.

# FREE Prostate Cancer SCREENING

Wednesday, September 12, 2018 | 5–7 p.m.

**Sangamon County Department of Public Health**

2833 South Grand Ave E. | Springfield, IL 62703

**Who should consider screening:**

- ▶ Men 55–69
- ▶ Men with no history of Prostate cancer
- ▶ Men not under the routine care of a Urologist
- ▶ Men starting at age 40, if there is a family history of a father, brother or son diagnosed with cancer
- ▶ African American men over 40, these men have two times the risk of dying from Prostate cancer than any other race.

The Regional Cancer Partnership is offering **FREE** PSA blood tests, physician performed digital rectal exams, and blood pressure readings. Flu shots will be available at the event.

To schedule an appointment, call **217-535-3100 x3744** beginning Aug. 27 to pre-register. Callers can leave a message if no one is available.
